Query Lengths and Counts – Repeated vs Non-repeated Tasks

Total Query Length

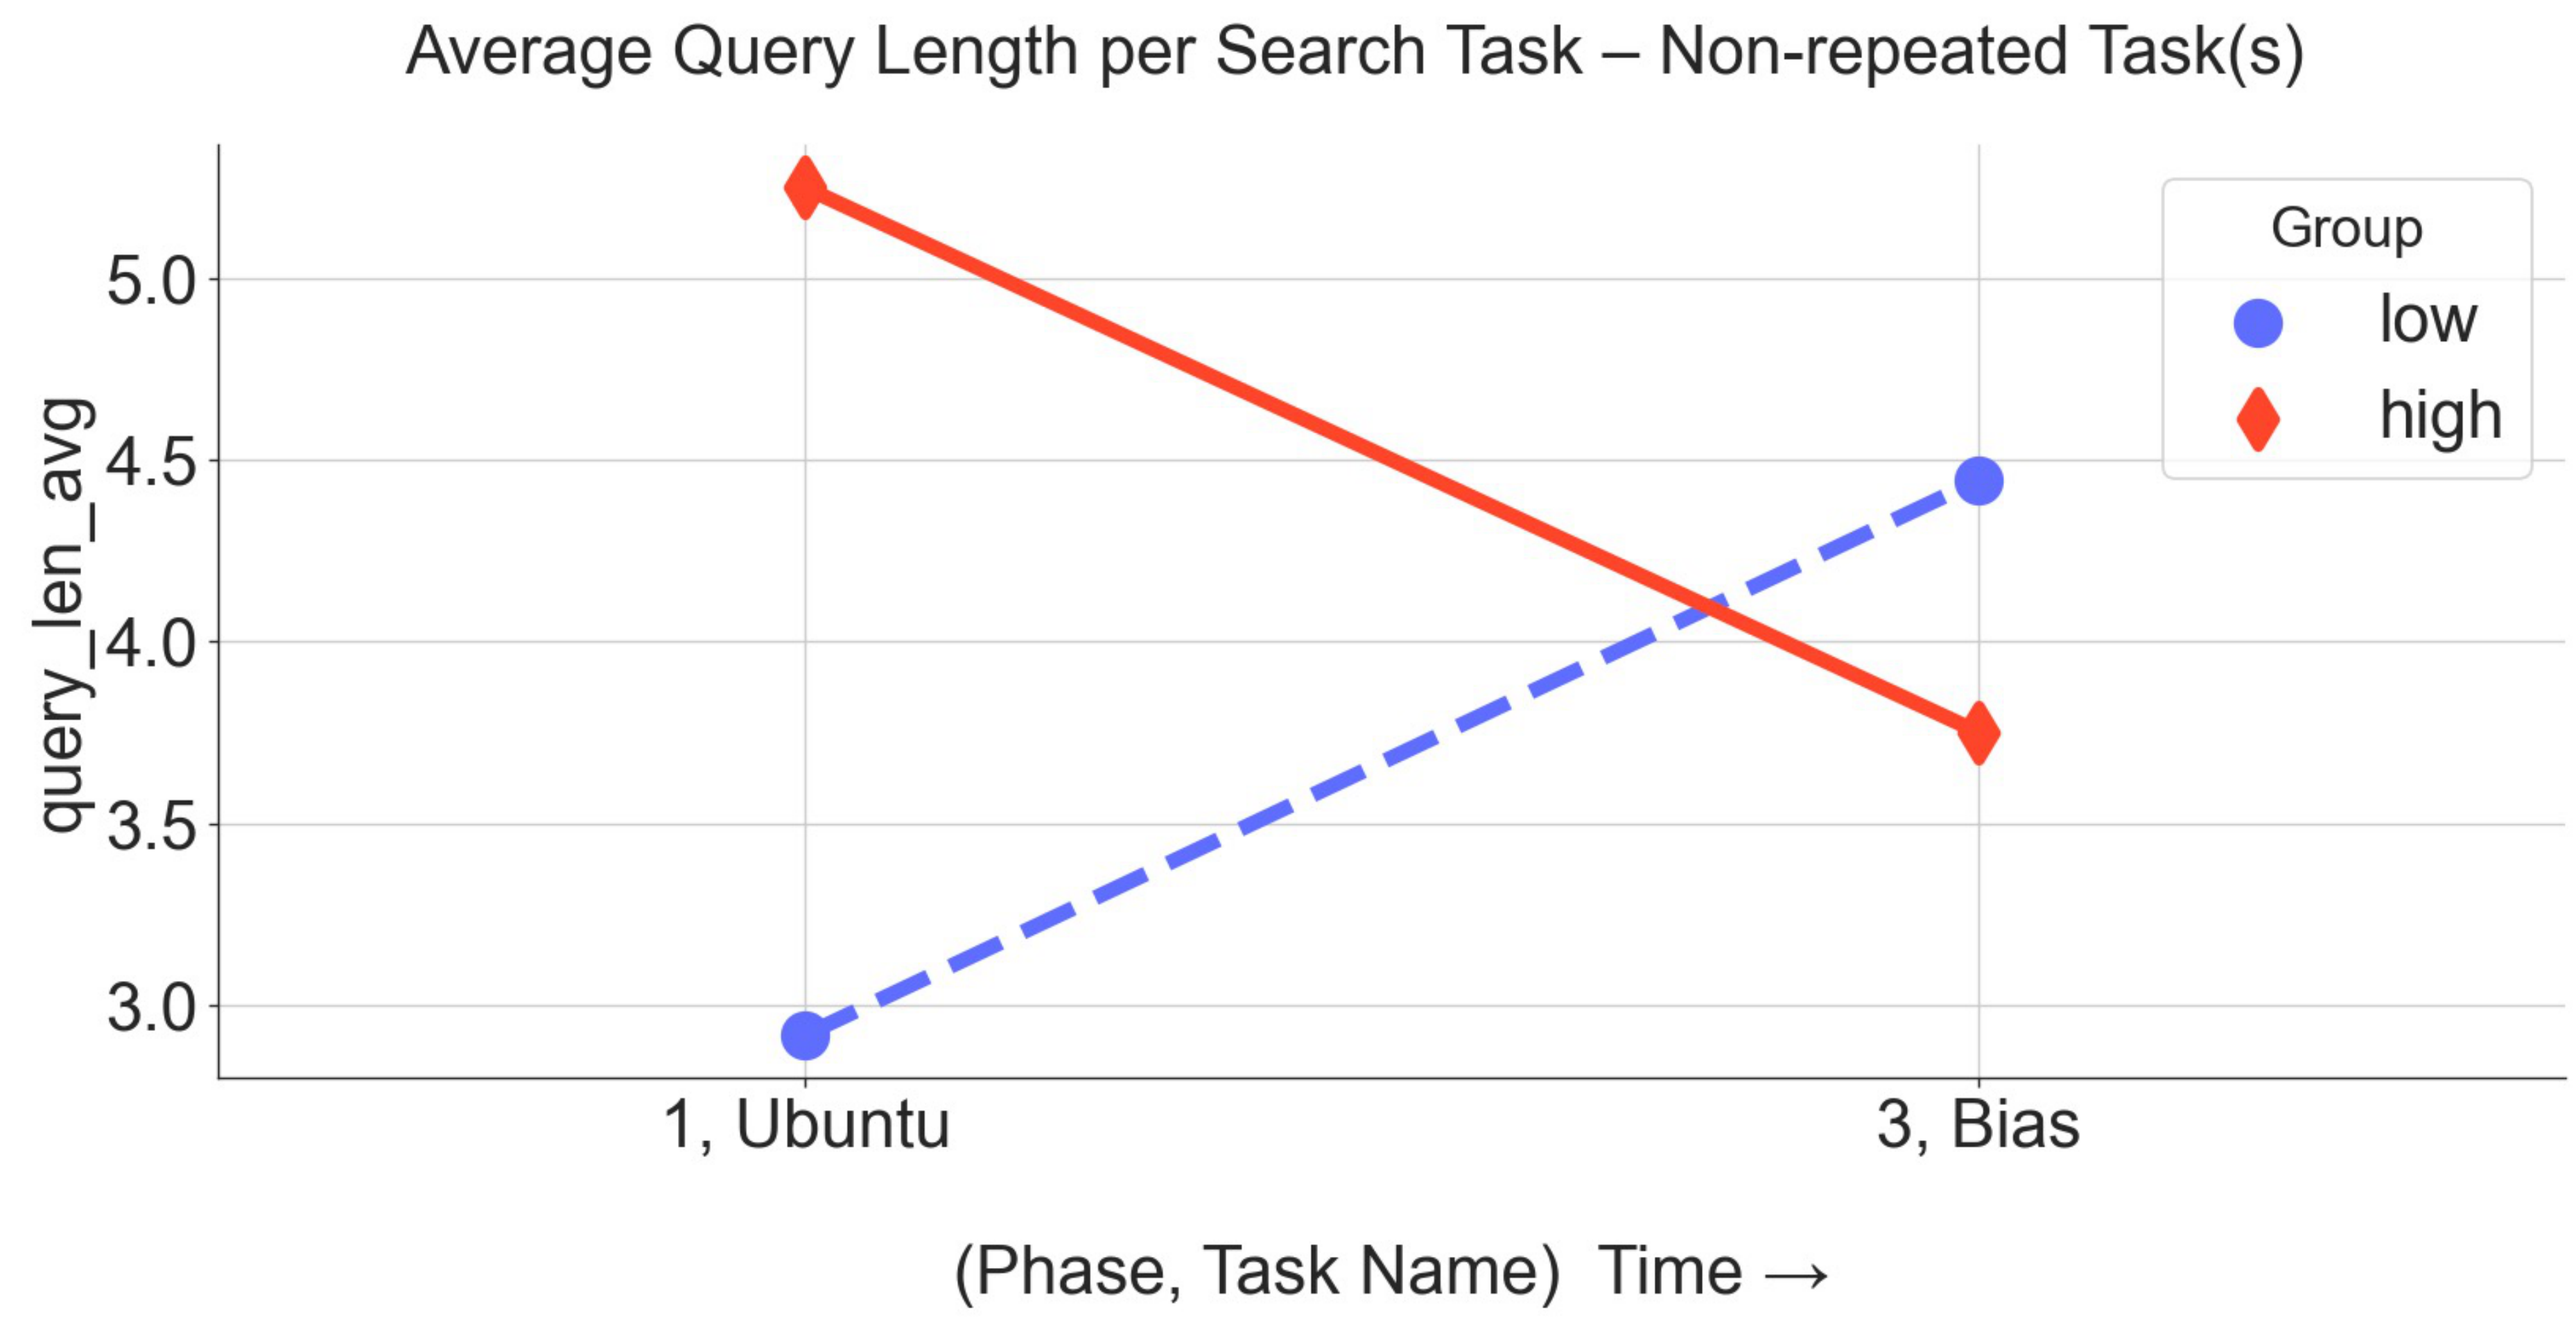

Total Query Length per Search Task – Repeated Task(s)

(Phase, Task Name) Time →

(a)

Total Query Length per Search Task – Non-repeated Task(s)

(Phase, Task Name) Time →

(b)

Average Query Length

Average Query Length per Search Task – Repeated Task(s)

(Phase, Task Name) Time →

(c)

Average Query Length per Search Task – Non-repeated Task(s)

(Phase, Task Name) Time →

(d)

Number of Queries

Number of Queries per Search Task – Repeated Task(s)

(Phase, Task Name) Time →

(e)

Number of Queries per Search Task – Non-repeated Task(s)

(Phase, Task Name) Time →

(f)

Repeated Tasks: Personal Finance

Non-repeated task: Ubuntu Ethics, Algorithmic Bias
